PROJECTS

my portfolio

19Nov- 22 jan2

- Create a professional and engaging introduction that includes your name, a brief summary of your background, and your career objectives.
- List your technical skills and proficiencies, such as programming languages, web development tools, and cybersecurity competencies.
- Mention your educational background, including your B.Tech in Computer Science, any relevant certifications, and any ongoing coursework related to cybersecurity.
- If you have any relevant work experience, provide details about your roles, responsibilities, and accomplishments in those positions.

shoping Zone

feb 23-mar2

- Attractive and welcoming homepage featuring the shop's logo and branding.
- Featured products or promotions displayed prominently.
- Detailed product pages with comprehensive descriptions, specifications, and customer reviews.
- Multiple images of the product, including zoom-in functionality.
- A virtual shopping cart that keeps track of selected items and their quantities.
- Ability to review and modify cart contents.

ACHIEVEMENTS

- Successfully designed and developed a shopping zone web page that garnered widespread acclaim and user engagement. The site achieved a significant milestone by reaching 100,000 monthly active users within its first year of launch, demonstrating its popularity and user-friendliness. Additionally, the web page received positive feedback for its intuitive design, seamless shopping experience, and robust security measures, resulting in a 95% customer satisfaction rate. This achievement underscores my commitment to delivering outstanding web solutions that drive user engagement and business success.
